

NEW ROSES FOR TODAY'S GARDEN

With Teresa Byington

Teresa Byington is a rose expert who will put you in the mood for those Valentine roses—and feed your interest for roses in your garden.

Teresa will explain how the Knock Out Rose, released in 2000, changed the world of roses forever. She tests many of the new varieties in her large cottage garden of about 200 roses, and will share her experiences and recommendations.
